PROFILE

Results-driven CMS & WordPress Developer with strong experience in designing, developing, and maintaining dynamic web platforms. Skilled in building scalable and user-focused web solutions using modern technologies including JavaScript, React, and backend systems.

Experienced in customizing CMS platforms, integrating APIs, optimizing performance, and delivering responsive, high-quality websites. Adept at working in Agile environments and collaborating with cross-functional teams to deliver efficient digital solutions.

EDUCATION

University of Rwanda

November 2017 – November 2022

Bachelor's Degree in Computer & Software Engineering

EXPERIENCE

IT Developer, MIU Creative Agency (Remote)

June 2022 – Present

- Gathered and analyzed client requirements, translating them into scalable application features and technical specifications.
- Developed and maintained WordPress and CMS-based websites, customizing themes and layouts to meet business and user needs.
- Collaborated with UI/UX designers to implement user-friendly, accessible, and responsive interfaces.
- Worked within Agile frameworks, consistently delivering features on time and meeting project objectives.
- Participated in code reviews, debugging, and performance optimization to improve overall system quality.
- Designed and enhanced web applications to improve usability, performance, and user engagement.
- Identified and resolved software issues, ensuring high availability and reliability of applications.
- Built responsive front-end interfaces using JavaScript, HTML, and CSS, ensuring cross-device compatibility.
- Integrated third-party APIs and external services to extend application functionality.
- Collaborated with developers and product managers to design efficient and scalable software solutions.
- Applied best practices in coding, testing, and documentation to ensure maintainable and clean codebases.
- Continuously improved technical skills across modern web technologies and development tools.
- Optimized websites for performance, speed, and cross-browser compatibility.

Fullstack Developer, ZIDIO (Remote)

April 2024 – July 2024

- Developed and maintained a Feedback Collection System with real-time data submission, secure authentication, and analytics tools for feedback tracking.
- Designed and implemented a Real-Time Chat Application with instant messaging, group chat functionality, and end-to-end encryption for secure communication.
- Built and managed an Online Learning Platform with interactive course management, live virtual classes, and secure payment integration.
- Ensured data security through encryption, regular audits, and feedback moderation tools.
- Integrated multi-channel accessibility for seamless user experiences across devices.

Software Developer, Trainee Andela-Rwanda (Remote)

February 2022 – December 2022

- Developed a personal portfolio website to showcase projects and technical skills, improving online visibility and professional presentation.
- Collaborated in a team to build a bus tracking simulation application, enabling users to monitor vehicle movements and locations in real time.
- Analyzed project requirements and translated them into functional and scalable application components.
- Participated in code reviews, applying feedback to improve code quality and align with industry standards.
- Designed, developed, tested, and documented software applications following best practices in software development.

Software Developer, STES Group Ltd (Hybrid)

February 2021 – April 2021

- Contributed to the development of IoT-based systems, including smart irrigation and home automation solutions, focusing on system reliability and performance.
- Collaborated with cross-functional teams to implement code improvements, debug issues, and enhance system functionality.
- Applied structured development practices and tools to reduce errors and improve code quality.
- Supported system integration by ensuring smooth communication between hardware components and software applications.

TECHNICAL SKILLS

- Frontend: React, JavaScript, HTML5, CSS3
- Backend: Node.js
- Database: MongoDB, PostgreSQL
- Tools: Git, GitHub, Heroku, Netlify
- Design: Figma, Photoshop, Framer

LANGUAGES

- English: Fluent
- Kinyarwanda: Native
